Front End Team Leader at Forextime, Limassol, Cyprus

May 2013 — October 2019

I started working with Front End position. My first duties were to develop web site and client's area in the company. Company was growing and finally I have team of 5 front-end developers. We are implementing and supporting web sites of several projects and client's areas, some micro services and internal portals and CMS's.

Last 2 years my responsibilities were:

- System analyses of new projects
- Decomposing projects to lists of small estimated tasks
- Architect infrastructure
